PROFILE

A detail-oriented and self-driven web developer, with a strong passion for building aesthetically pleasing and functional websites. Proficient in HTML, CSS, Bootstrap, and Javascript. Recognized for exceptional problem-solving skills, work ethic, and continuous learning. Committed to creating responsive and easy-to-navigate websites using the latest web tools.

PROFESSIONAL EXPERIENCE

Web Developer, Full Service Funnels

2021-Present

- Developed and implemented processes that reduced website build times by 40%.
- Utilized available technologies to organize, test, and deploy tools to aid website creation.
- Gained knowledge and practical experience with CRM's website integration.
- Authored internal documentation and support articles for users.

Web Developer, SoSucculent - WordPress Custom Theme

Summer 2020

- Designed and implemented a responsive WordPress theme for small businesses, incorporating blog space and an online store.
- Integrated WooCommerce to power the online store.
- Constructed a blog area featuring a sidebar and comment section.

Weather App

- Developed a web application to retrieve and display weather data from an API for a given location.
- Collaborated effectively with a team, assigning and executing specific project roles.
